

Historic Library Section/Museum

The Board of Directors in an attempt to better facilitate instructional learning materials for the students, staff and community has developed a section of the library and a library/museum section for historical collection of our community's history.

The district shall:

1. Attempt to collect adequate books, tapes, VCR materials, maps, artifacts, souvenirs and other historical items;
2. Provide cabinets and facilities to accommodate their storage and preservation;
3. Encourage student use and education of our community's past;
4. Incorporate student and community utilization.

The district shall formulate plans for expanding the concept of student objectives to this course of study. Likewise, at least two meeting will be held in October and March annually for this purpose.
